Slimming Slider is a fast and lightweight image slider with customizable transitions, customizable animation, customizable pause, and it can be embedded into the browser or used as a standalone slideshow generator. Swipebox v3 is a beautiful image slider and comes with a ton of customization options. It's clean, simple, and super responsive for smooth slider animations. It has a simple, yet powerful and elegant design. Vector Spray is a great and easy-to-use animated vector spray design plugin that looks for fun, but can also be used in business-related projects to create new and modern icon designs. Wallpaper Hide is the best way to hide your desktop wallpaper! On windows it hides the wallpaper and on macos it overlays the wallpaper with a nice animation, which makes it super easy to see what's hidden behind the wallpaper. WixFLDC is a Windows GUI toolkit for creating lightweight desktop or tablet apps that features clean, intuitive and easy to use user interfaces (UIs) and methods for creating components, transitioning animations and binding user actions. WindowBlinds (windows edition) is an all-in-one solution for eye-candy and privacy, allowing you to darken your desktop and/or blocks out your screen from the the general public. It also comes with an opt-out script for screen readers. Xvidtune is a utility designed to help you analyse the encoding settings of your xvid, x264 and x265 videos. It has easy to use tools to help you select optimized encoding settings and the features of the application make it possible to analyse many videos at the same time. Year Calendar – Schedule / Schedule Itinerary Scraps are SVG icons for a year calendar. I've made the dates (separated and combined, according to the month) and the blank tiles are smaller. All you have to do is download the icon, replace the year, and insert into the template. I use a HTML5 wysiwyg (Markitup) editor like the downloadable one on the right of my site (2 buttons). Download Schedule Itinerary Scraps by... Create a table of contents from several files, either from the command line in Linux, or automatically with a GUI. Concatenate a static table of contents from the command line in Linux, or by right-click on the files in Windows. The program is designed for GNU/Linux and 09e8f5149f
