## µNote Crack Latest

- Write notes down on your system using the keyboard - Fully portable, works anywhere you can get internet - Multiple keyboard shortcuts - Two UI themes (Dark and Light) - Configuration file stored in the same folder as the application itself - Simple and easy to use - Does not use a ton of resources - Works offline - Supports a variety of filesystems Hans Groër's 0.0.4 release notes: - Fixed an issue with the command-line arguments - Fixed a crash in the code while printing - Fixed a bug with cmd line arguments - Fixed a crash with the font when saving and loading the file - Fixed a problem with the keyboard shortcuts when the application was not running - Fixed a problem with copying the selection to the clipboard - Fixed a problem with the date when saving the file and loading it again - Fixed some issues with the text style - Fixed a crash in the code that was made after Hans has been promoted as CTO at Inno - Fixed the microtransactions not showing up in the configuration screen - The directory that will be created is now also called "notes" Hans Groër's 0.0.3 release notes: - Fixed some issues with the notes not showing up in the "New Notes" screen. - Added a bunch of new commands for the help system: - help list - lists all the commands - help clear - clears the help list - help - starts a note and displays the help screen - help print - prints the help screen (like the help command does) - help toggle - adds or removes the help window to the application - help copy - makes the selection of text on the help window the text that will be copied - help hide - hides the help window This is an improved version of Hans Groër's Notepad (Basic). I think this is a better alternative to Notepad++ and other text editors with tons of features. This version is only available on itch.io, you can find more info and help at I use this quite often to keep notes or place a small message, for example in our office when you are waiting for a meeting. Features: - Fully portable - No installation needed - Comes with a dark and a light theme - Hotkeys - Large font - Small font -

## µNote Free For Windows
