The resulting simulated players are more intelligent than ever before. For the first time in a FIFA game, players have the ability to react intelligently and adaptively to unpredictable situations, such as when a ball is kicked into the air and deflected into the top corner of the net. FIFA Ultimate Team Mode FIFA Ultimate Team (FUT) in FIFA 22 gives you the option of creating custom "Master League Teams" that can

---

be used for a season of in-game matches in FUT. New Player and Coach Drafts also allow for the creation of custom team rosters of any combination of live player and FUT player. Match Day FUT is also a platform for in-game interaction. When using a custom roster in FUT, you will have the opportunity to react to your opponents during a game in live events triggered by touches and passes on the pitch. In addition, FUT Champions will have the chance to match wits with a

---

personal coach by responding to in-game events. Create your best XI, then play in the Master League Cup and have your games reviewed by your coach.

**Pitch Engine** Every aspect of the match engine has been rebuilt from the ground up, including an all-new re-designed ball physics system. The pitch engine has been rebuilt to give teams the ability to manage pressure, with the engine adapting to the opposition's play. With this, the game simulates more

---

unpredictable and volatile matches. Corner Kicks The penalty box has been rebuilt. This allows the penalty taker to more easily manipulate the ball in their run up and take advantage of their weaker, trailing leg. This puts more pressure on the goalkeeper to react quickly and anticipate the run. Near Goal Scoring The goalmouth area has been completely re-designed. The goalmouth area has more space and more options for the

---

attackers. You can see the path of the ball and how it will be played up to the goalkeeper. You will also have less room for error, and you cannot be easily tricked into giving away possession by going behind your own goalkeeper.

**Short and Long Passes** The long ball has come back to FIFA. The new long pass gives players more options for their next move and will now more accurately reflect what's really happening on the pitch.

**Avoidance** Players can now

---

# evade their marker and make it more difficult

## **What's new:**

- **FUT Teambuilding - The Team Builder is a powerful new feature that allows you to create your own custom talent tree, select which cards to hold in your FUT team squad, and then use features like passive and reactive cards to customise your squad depending on your FUT game style. Want to practise Active Attacking? Get two strong centre forwards and a speedy winger on the flanks. Successful direct play in the opposition penalty box or two two strikers in support with three smart, not-bad playmakers around. Firmly defensive, but you'll raise your average possession even more by giving a bit of balance to your squad. What if you're a lone wolf? A lone dynamo? Sound FUT Teambuilding is for you. Teambuilding Career Mode - Live out your dreams as a manager or player in FUT 22. **lower divisions as you manage your team to glory. For the first time in franchise mode, you'll be able to play your way through the tiers of your own Pro League - climb the middle or lower divisions. For the first time ever, FUT 22 brings free agent signings, and there are 99 free agents currently available. You can also now buy out a player, so instead of being restricted to paying their buyout, players can be bought out by another club. And improvements to management games allow for more overall control in the managerial game like interactive audibles and timeouts. Next Goal Wins - A brand new match type, Next Goal Wins allows match directors to make the next goal count, while stadium functionalities allow fans to get involved. In addition, players can now make shots count by entering their shooting hot zones in each opposition half in the shooting functionality. No longer a box in the middle, the hotzone can now be found either to the left or right of the ball,**
